# THE COVERT SECURITY SENSOR KEEPING YOUR ASSETS SAFE

100mm x 65mm x 19mm

ALARMTRACK™ is a covert monitoring system which employs a revolutionary new tracking technology working to TWO GPS Satellite systems with TWICE the normal coverage.

Ultra-low power consumption ensures a battery life of one to four years, and the ability to work in hidden positions.

This means the ALARMTRACK™ sensor can be fitted in moments, and forgotten for complete peace of mind.

## ALSO IDEAL FOR...

- 1 PLACE AND TRACE**  
We will send a reassurance position from your asset once a day that you can view online or via a smartphone app. Great peace of mind at low cost.
- 2 SET MOVEMENT ALERT**  
via your phone App. You will be notified by text and email if your asset moves without authority. Powered by Telstra.
- 3 ALARMTRACK™ RECOVERY**  
can be switched remotely into 30 second interval live tracking and reporting – a recovery mode to get your property back if the worst happens.
- 4 NEVER GIVES UP**  
will report successfully where other wireless devices just give up.
- 5 LOW SIGNAL AMPLIFICATION**  
enables operation where normal units fail (eg. in a container stack or underneath a trailer).
- 6 FUSS-FREE 24/7 TRACKING**  
installed in moments and fully transferable to where your need is greatest. Just Place 'n Trace.
